

Summer is a time of increased travel on our nation's roads. The Be Cycle-Logical campaign reminds motorists to recognize the risks of sharing the road with motorcycles.

Frequently motor vehicle drivers do not see motorcycles on the road. This is a common cause of crashes. "Be Cycle-Logical" through television, billboards, pump toppers and workplace efforts will educate your employees and their families to ... "Always look twice for motorcycles."

Download these free workplace campaign materials today from safenebraska.org or use this order form. Table tents are not downloadable but we have a quantity for your use.

Specify quantity and fax your order to 402-896-6331
