In 1964, the National Safety Council introduced the country’s first defensive driving course. Since then, NSC has trained more than 75 million drivers. And we continue to train over a million drivers each year.

NSC is the only safety organization chartered by Congress and recognized for our leadership in safety programs and advocacy.

**Benefits of Driver Safety Training**
Through collision prevention strategies, hazard recognition exercises and reinforcement of safe driving practices, NSC driver safety training can potentially help your organization:

- Minimize corporate liability risks and exposure
- Reduce traffic violations and motor vehicle collisions
- Decrease insurance costs and workers’ compensation claims
- Lower vehicle repair and replacement expenses

**Online Training**
NSC offers many of its driver safety training courses online. With online training you will be able to:

- Eliminate costs associated with travel or extra time away from work
- Allow your employees to take the training at a time and pace that is most convenient for them
- Provide your employees access to training from tablets and mobile devices on most courses

Our online courses deliver real-life driving scenarios, using state-of-the-art technology, to motivate drivers to change their behind-the-wheel behaviors and attitudes.

*See pages 4-9 to learn more about our Online Defensive Driving Course Programs.*

**Classroom Training**
You can have a member of your staff become a certified instructor for your Defensive Driving courses. They can take the instructor training online and can usually complete it in about a day.

Having an on-staff instructor provides important benefits, including:

- Flexibility and more control over how, when and where employees receive training
- Greater focus, increased comprehension and higher rate of completion by participants
- The assurance that whenever the course is taught, the content, presentation and learning outcomes will be consistent with NSC standards

*See pages 10-14 to learn more about our Classroom, Instructor-led Defensive Driving Course Programs.*

### Don’t Miss Out!

Honor Your Achievements in Safety

Learn about the variety of individual, team and corporate awards NSC offers.

---

Prices and fees in this catalog are subject to change or termination at any time without advance notice.
The 4-hour Defensive Driving Online Course now offers even more personalized driver content and advanced technology. It will help your employees become more knowledgeable about safe driving practices, so they will be less likely to be involved in motor vehicle incidents, helping to minimize your corporate liability risks and costs.

The newly revised course delivers enhanced interactivity to engage drivers and improve retention. It features real-life driving reenactments, hazard identification and risk-assessment challenges. Plus, the content is tailored to the participant’s driving profile, including such factors as age, driving attitudes and behaviors.

What Employees Learn:
- Defensive driving strategies to reduce motor vehicle collisions
- The effects of drugs, alcohol, physical and mental conditions
- How to deal with distracted, aggressive and fatigued driving
- Conditions that impact driving and how to control them
- Importance of occupancy safety devices

Additional benefits with purchase of 100 or more registrations (see page 9 for details)

* Defensive Driving Online Licenses can only be used for up to 12 months from purchase date. Each user registration is counted as one license. Defensive Driving Online Courses contain closed captioning.
Defensive Driving Online Courses deliver real-life driving scenarios that will motivate drivers to change their behind-the-wheel behaviors and attitudes. Through state-of-the-art technology using computer-generated animation, interactive exercises and adaptive curriculum, employees will learn defensive driving best practices to protect themselves and their company.

Defensive Driving Online Abridged

Defensive Driving Online Abridged Course takes approximately 2 hours to complete and contains the primary learning points from the 4-hour course. Participants will gain the basic knowledge and skills to recognize and avoid motor vehicle collisions and violations. The newly-revised abridged version contains many of the same interactive exercises, crash scenarios and videos from the 4-hour course. (It does not contain the tailored, adaptive curriculum of the 4-hour course.)

This abbreviated edition offers an engaging learning experience and is perfect as a refresher course or post-incident training.

**COURSE SESSIONS & DESCRIPTIONS’ (4-HOUR AND 2-HOUR)**

**It’s All about Choices**
Determine your personal driving profile, driving attitudes and behaviors, defensive driving, and collision prevention strategies

**Ready for the Road**
How various conditions – controllable and uncontrollable - affect your driving. Learn defensive driving techniques to compensate for those situations as well as vehicle maintenance, and occupant protection systems

**Don’t Add Insult to Injury**
Impaired, distracted, fatigued and aggressive driving and managing your emotions while driving

**Success on the Road**
Six most unsafe driving behaviors, hazard recognition driving scenarios and how to apply safe driving techniques

**Collision Prevention**
Steps to preventing collisions through real-life driving reenactments and identifying road shapes and signs

**Driving for Life**
Habits of defensive driving and recognizing personal accountability for your driving behaviors and decisions

**Post-test**

The content, videos, interactive exercises will vary between the 4-hour and 2-hour course. Not all of the content covered in the 4-hour course and listed above will be included in the 2-hour course.

Only the 4-hour course offers tailored, adaptive curriculum based on the participant’s personal driver profile.

* Defensive Driving Online Licenses can only be used for up to 12 months from purchase date. Each user registration is counted as one license. Defensive Driving Online Courses contain closed captioning.
Distracted Driving Online Course
is designed to motivate drivers to change their risky behaviors and attitudes about distracted driving and to help organizations lower their liability risks and costs associated with motor vehicle collisions. It addresses personal costs and ramifications after a distracted driving incident as well as strategies to avoid distracted driving. A comprehensive self-assessment sets the pace for the course with related scenarios and activities. Organizations have the option to include their corporate cell phone policy into the course.

What Employees Learn:

- The risks, dangers and consequences of cell phone use while driving
- The science of distracted driving and myths about multitasking
- The impact of distracted driving, financial and legal ramifications, state and federal laws, and much more

Distracted Driving Online Abridged Course
contains the primary points and scientific research from the 90-minute course. This abridged version contains many of the same videos and exercises as the full-length program. A basic self-assessment helps identify the participant’s driving behavior, attitude and risk level.

**COURSE SESSIONS AND DESCRIPTIONS**

<table>

Defensive Driving Online Modules

With NSC Defensive Driving Online Modules, you can train employees with individual topics based on specific training needs. Or you can train them with the full module library and provide a comprehensive safe driver program.

The individual modules are approximately 20 minutes in length and allow you to customize your driver safety program, based on your corporate training schedule, employee driving behaviors and motor vehicle incident rates. These modules will help employees learn defensive driving techniques and collision prevention with:

Course Features:
- High-quality video, 3D animation and illustrations
- High level interactivity and exercises to maximize learner’s involvement
- Quiz and printable certificate after successfully completing each module

Order the full module library and have access to all nine training sessions

As your needs, or the needs of your employees change, you can easily adjust and tailor your training, with the full safe driver program available at your fingertips. Each library registration includes the complete set of all nine module training sessions with printable certificates after completion of each module.

Take an Interactive Test Drive! nsc/DDConline-DEMO

Purchase now: nsc.org/DDConline-NOW
This award-winning 4-hour online course focuses on the most common causes of truck-related incidents and provides truck drivers with defensive driving strategies to avoid collisions and traffic violations. The new edition contains the latest statistics and interactive technology to fully engage your drivers.

The adaptive curriculum is tailored to the driver’s individual profile and is based on such things as the driver’s age, type of vehicle and road conditions. It helps drivers recognize their own personal driving tendencies, attitudes and habits and emphasizes the need for continuous improvement. The highly-interactive course presents real-life driving situations and hazards and motivates drivers to change their behind-the-wheel behaviors.

What Employees Learn:

- Collision prevention through hazard recognition
- The ramifications of driving at excessive speed
- Physical and mental conditions that can affect driving
- Pre-trip and post-trip inspection procedures
- Safe driving skills related to lane management, passing, turning, following and stopping distances, backing, blind spots and more

Also available:

Professional Truck Driver Classroom Training

If you would prefer classroom training for your employees, the National Safety Council offers a Certified Instructor course. See page 14 for details.

### Safe and Smart Guarantee

If for any reason you are not satisfied with your NSC Driver Safety Training Program in the first 30 days, simply let us know and we will issue a no-questions-asked refund.
Many companies choose to have a staff member become a certified instructor for their NSC Defensive Driving Course. Having a private, in-house safety program for driver training provides additional flexibility, and greater control over how, when and where employees receive training. And with instructor certification, companies can be sure that whenever the course is taught, the content, presentation and learning outcomes will be consistent with NSC standards.
The NSC Instructor Certification Course

Candidates to become certified instructors take a convenient online course that combines step-by-step instruction with a cutting-edge multi-media presentation. They learn how to teach safe driving skills using materials that include videos, scenario-based training, hazard-recognition challenges and real-life driving re-enactments. The Instructor Certification Course allows participants to set their own pace for learning as they work their way through modules that incorporate interactive activities, videos, animations and periodic knowledge tests and quizzes. Each candidate will retain their very own Instructor Resource Kit containing the easy-to-follow facilitation materials to teach the course.

Modules in the Instructor Certification Course include:

- **Defensive Driving Course Foundation**
  Covers defensive driving principles and strategies, terminology, and more.

- **Defensive Driving Course Facilitation**
  Focuses on the instructor’s role in the classroom, learning styles and techniques of classroom management.

- **Choice Theory**
  Content from *Choice Theory* by William Glasser, MD, and how to apply choice theory techniques for adopting new behaviors.

- **Course Specific Training**
  After mastering the previous modules, the candidate instructor will learn the content from the selected Defensive Driving Course.

Ongoing NSC Support

A personal, professional training coordinator is available to answer questions and provide help throughout the training process, including during registration, and course administration.

Three easy steps to get started

1. **Call**
   Contact NSC at (800) 621-7619 to start the process of ordering your Instructor Certification Training and Instructor Resource Kit.*

2. **Go Online**
   We’ll set up your registration online – simply sign in and complete your Instructor Certification Course.**

3. **Start Teaching!**

---

* Payment for the Instructor Course and Instructor Resource Kit is required prior to beginning the online Instructor Certification Course.

** Your first year of DDC Instructor credential is included when you complete your Instructor Certification Course. Instructor recertification is billed annually after that.
Defensive Driving Course – 10th edition

What Employees Learn:

The NSC Defensive Driving Course 10th edition, the most compelling driver safety program offered by NSC, now gives instructors the flexibility to teach the course in 8, 6 or 4 hours. Your employees will acquire the knowledge to recognize and respond to immediate and potential hazards and learn coping techniques to handle speeding, distracted, impaired, aggressive and fatigued driving, and various traffic and road conditions.

Through scenario-based training, participants evaluate and assess high-risk driving situations and determine the most practical response using defensive driving techniques and collision prevention strategies.

Keeping drivers fully engaged with high-impact videos and real-life driving scenarios

The 8-hour course integrates more than 60 minutes of all-new video, animated graphics and illustrations. From hazard recognition scenarios to risky driving evaluations to vehicle maintenance checkpoints, the multimedia presentation reinforces the key learning points and strengthens the participants’ understanding of the benefits of choosing safe, responsible driving. Total video duration will vary based on course length.

Course Features:

- Easy-to-follow curriculum with user-friendly multimedia presentation provides instructors the flexibility to teach the course in 8, 6 or 4 hours
- Confidential, self-assessment to help course participants identify and address their own driving behaviors, attitudes and risk-taking factors
- Scenario-based training includes a full library of compelling videos and hazard-identification challenges creating a more interactive learner experience
- Highly-effective behavior modification strategies and techniques to encourage respectful and lawful driving decisions

Learn more about the NSC Defensive Driving Course:

- Visit: nsc.org/DDC10-Learn
- Request information: nsc.org/DDC10-Info
- Call us: (800) 621-7619

View the course outline: nsc.org/DDC-Classroom-Outline
NSC Defensive Driving Course is a 3-in-1 driver safety program

Convenience matters when training needs change

The NSC Defensive Driving Course contains the curriculum to teach three courses. When different training situations occur, you have the flexibility to adjust the course length – offer our 8-hour course for new employee orientation and the abbreviated 4-hour course for refresher training. It’s that simple.

Our most comprehensive defensive driving curriculum. The 8-hour course provides the highest level of defensive driving knowledge and skills. It includes the benefits of being a safe and responsible driver and the techniques for avoiding high-risk driving behaviors. Hazard recognition scenarios and the skills needed for dealing with immediate danger and anticipating potential hazards are the principal learning points. Participants evaluate their own driving behaviors and develop a personal plan for change.

The foundation of defensive driving. The 6-hour course provides the primary knowledge and skills for defensive driving and describes techniques for avoiding high-risk driving behaviors. Participants learn that the right attitude can prevent collisions and will understand the consequences of poor-decision making. Hazard recognition scenarios and applying the skills for dealing with immediate and potential dangerous driving situations are a key focus of the course.

Refresher training for all employees. The abbreviated 4-hour course offers drivers fundamental defensive driving knowledge and skills, defines what it means to be a safe and responsible driver and describes techniques for avoiding high-risk driving behaviors and situations.

For an overview of each course, visit: nsc.org/DDC10-overview

Getting started with NSC Instructor Certification

Through the NSC Instructor Certification Course, you can schedule training at your convenience. The web-based program invites candidate instructors to complete the course at their own pace, with the added benefits of eliminating travel expenses and less time away from home and work. The Instructor Certification Course combines best practice facilitation techniques for teaching defensive driving. It includes instructions on how to teach the course with actual instructor-student interactions. For complete details about how to enroll in our Instructor Certification Course, see pages 10-11.
Professional Truck Driver – 5th edition

What Employees Learn:
The NSC Professional Truck Driver Course addresses the most common causes of truck-related crashes and traffic violations. The course teaches proven collision prevention techniques through scenario-based training, hazard recognition reenactments, and crash avoidance procedures in a variety of driving situations, road and weather conditions and environments. With the flexibility to teach the program in 3 or 4 hours, instructors can select the course duration based on corporate training goals, schedules and driver experience. Better yet, the content builds upon existing behind-the-wheel skills and personal and professional excellence as it relates to truck driving.

Course Features:
✓ Highly effective, scenario based training methods integrating hazard recognition and skill-building techniques into the multimedia presentation
✓ Best practice strategies to help participants learn safe and legal alternate choices when dealing with hazardous situations and risky driving conditions
✓ Knowledge checks, session reviews and a final exam to validate retention

Getting started with NSC Instructor Certification
Through our Instructor Certification Course, you can schedule training at your convenience. The web-based course combines best practice facilitation methods for teaching defensive driving and it includes instructions on how to teach the course with instructor-student interactions.

For complete details about how to enroll in our Instructor Certification Course, see pages 10-11.

* Payment for the Instructor Certification Course and Instructor Resource Kit is required prior to beginning the Instructor Certification Course.
** Includes Instructor Manual, Multimedia Presentation, Student Course Guide and Certificate of Completion.
*** Your first year of DDC Instructor credential is included when you complete the Instructor Certification Course. Instructor recertification is billed annually after that.
The Self-Study program is a highly effective driver safety training option that allows participants to study at their own pace. It is ideal for employees who are unable to attend a classroom course or enroll in an online program. Participants will be presented with an easy-to-follow 48-page Study Guide along with a companion USB featuring 14 videos including real-life hazard recognition scenarios. The Study Guide will tell participants when to view each video as they progress through the course. The USB videos cover various topics including driver self-assessment, collision prevention, occupant safety, dangerous driving behaviors, lane management, impaired driving and more.

Course Features:

- This newly updated 3rd edition contains the latest statistics and driving regulations as well as a focus on the individual driver and their behavior.
- Course videos contain re-enactments, real-life driving scenarios and testimonials that will motivate participants to drive defensively and become responsible drivers.
- A final exam, consisting of a multiple choice test with an NSC Certificate of Completion. You can grade your exams with our grading guide then provide participants who score at least 70% with the Certificate of Completion.

COURSE SESSIONS & DESCRIPTIONS

Session 1
Behind the wheel behaviors that lead to the majority of crashes, as well as strategies for defensive driving and collision prevention.

Session 2
Different types of road users and hazard recognition. Includes the dangers of speeding, following too closely, aggressive driving and road rage.

Session 3
Distracted driving, vehicle and lane management, substance impairment and drowsy driving.

Session 4
Recognizing hazards shown in videos and making the right choices.

Final Exam
Grading guide and Certificates of Completion will be included.

Nearly 40,000 people are killed on U.S. roads each year but the Road to Zero Coalition is on a mission to eliminate these deaths by 2050. Reaching this goal will take all of us and you can help by joining the nearly 1,000 organizations making up the Coalition. Membership is free, broad and inclusive. Join the Coalition and learn more at nsc.org/RoadtoZero-DDC.
What Employees Learn

The NSC Lift Truck Operator Training Program addresses the needs of drivers of all levels, from novice to experienced operators. It covers all lift truck classifications, including order pickers, side loaders, rough terrain. Participants learn how to safely pick up and stock loads and work with trailers, ramps and elevators. Safety skills for staff working near lift truck areas are also covered as well as crucial OSHA compliance regulations.

Comprehensive training at your worksite

This course offers all the benefits of off-site training programs, minus the costs and complications. It is designed to help prevent injuries at your worksite, as well as eliminate days away from work, property damage and associated costs.

Course Features:

- Live-action HD videos to fully engage participants
- Real-life stories from working operators to reinforce course material
- Interactive graphics to aid learning and retention

Course Modules include:

- OSHA Regulations for Lift Truck/Forklift Operation
- Lift Truck Design and Operating Principles
- Pre-Shift Safety Inspection and Preventative Maintenance
- Worksite Inspections
- Pick Up and Delivery of Loads
- Application of Lift Truck Operator Safety Skills

Lift Truck Operator Train-the-Trainer Course

What Employees Learn
Our most comprehensive lift truck training system available, this course covers safe lift truck operation while meeting crucial OSHA requirements. It features today’s top methods for training Lift Truck operators safely and effectively as well as the industry’s best tools for training non-operator safety in lift truck areas. It includes hands-on performance evaluation benchmarks and tips for interacting with the onscreen coach.

Comprehensive training at your worksite
This course offers all the benefits of off-site training programs, minus the costs and complications. It puts the power of positive safety changes into the hands of your instructors.

Course Modules include:
- OSHA Regulations for Lift Truck/Forklift Operation
- Lift Truck Design and Operating Principles
- Pre-Shift Safety Inspection and Preventative Maintenance
- Worksite Inspections
- Pick Up and Delivery of Loads
- Application of Lift Truck Operator Safety Skills

Each trainer receives a Facilitator Kit that includes these learning aids:
- Facilitator Guide plus companion PowerPoint DVDs (and PC/Mac CD version)
- HD videos featuring real-world working conditions, plus operator perspectives to give trainees valuable exposure to real-world working conditions
- Comprehensive final exam

Construction, maintenance and utility work zones can be especially dangerous for workers. That’s why the National Safety Council has developed special training programs for flaggers and others who work at these sites. The programs are based on the Federal Guidelines outlined in the Manual on Uniform Traffic Control Devices (MUTCD) and meet the U.S. Department of Transportation requirements.

**Flagger Programs**

Knowledgeable, well-trained flaggers can make a life-or-death difference at your worksite. NSC enables you to ensure work zone crews are properly trained in flagging procedures and know how to direct safe passage in and around work areas.

**Flagger Instructor Course – 2 days**

This course allows you to train employees to deliver the 4-hour Flagger Training Course at your worksite. By teaching flagger training at your organization, you’ll eliminate the need for travel and reduce the amount of time away from work. For Flagger Instructor Course dates, visit: nsc.org/Flagger-Instructor-ddc

**Flagger Novice Course – 4 hours**

Novice flaggers will learn the basics of safe flagging techniques. Experienced flaggers can take the course to renew their credentials.

**Temporary Traffic Control Supervisor Course – 2 days**

This program prepares work zone supervisors to implement effective Traffic Control Plans according to federal guidelines in the Manual on Uniform Traffic Control Devices (MUTCD). Attendees are led through problem-solving exercises based on real-world situations.

**Work Zone Technician Course – 1 day**

MUTCD introductory course in Work Zone Traffic Control to help the participants understand and develop safe temporary traffic control strategies to maximize both the employee’s and the road user’s safety. This course will be very beneficial in many agencies, municipalities, and companies, where the employee must work within the Roadway/Traffic environment.

Visit nsc.org/Workzone-DDC for course locations and dates. Pricing and course length may vary. Contact the Administering Office directly for additional information.
NSC Membership has its Benefits

When you become a member of the National Safety Council, you put the tools and resources of the world’s most trusted safety organization to work for you.

Included in your membership, you’ll receive:

✓ **FREE** annual subscription to *Safety+Health®* magazine for your entire management team and safety employees
✓ **FREE** subscription to *Traffic Safety®* newsletter for people responsible for keeping our streets and highways safe or *OSHA Up To Date®* a monthly newsletter on the latest developments in occupational safety and health
✓ **FREE** membership News Alerts with breaking safety news, delivered to your email inbox each week
✓ **FREE** monthly *Safety Spotlight* e-newsletter
✓ **FREE** downloads of webinars, safety talks, workplace posters
✓ **FREE** membership in your local NSC chapter and networking Divisions
✓ **FREE** Benchmarking Study to evaluate your company safety protocols

And you’ll receive discounts on safety training and registration for the world’s largest annual safety event – NSC Congress & Expo.

Put our team of safety experts behind you to help with all of your safety challenges. Join the National Safety Council today. Call (800) 621-7619 or visit nsc.org/join-DDC-1119

FREE Driver Safety Resources

NSC offers valuable resources to keep you and your employees safe on the road. Best yet, they are free to everyone!

**Focus on the Drive e-newsletter** Provides employers and their driving employees with the latest road safety information, tips and research. To read the e-newsletter and sign up for an email reminder whenever a new issue is published, go to nsc.org/FOD-DDC

**Safe Driving Toolkit** Contains safe driving resources and communication tools to help safety and HR professionals gain senior management support for policies and education to reinforce safer driving behaviors. The kit includes videos, fact sheets, FAQs, infographics, posters and educational materials. Download at nsc.org/SDK-DDC

**Vehicle Recall Checks** Encourage drivers to check the recall status of their vehicles and have open recalls fixed immediately. Check to Protect aims to bring together the automotive industry, traffic safety advocacy groups and federal and state governments to help overcome barriers to recall compliance. To check your recall status, go to nsc.org/vehicle-recall-DDC
Coaching the Emergency Vehicle Operator (CEVO) is a 6-hour classroom course that teaches ambulance drivers and fire apparatus operators how to navigate through traffic in emergency and non-emergency situations. The Fire and Ambulance courses promote critical thinking during high-pressure driving situations and help participants learn how to maneuver safely through traffic under severe time constraints and stress. The programs feature videos with real-life driver simulations followed by group discussions.

Coaching the Emergency Vehicle Operator® 4: Ambulance includes critical elements of safe driving including scanning, cushion of safety, reaction times, stopping and following distance, adverse weather conditions, blind spots, backing and turns, and more.

Coaching the Emergency Vehicle Operator® 3: Fire, covers defensive driving techniques for intersections, blind spots, reaction time, stopping and following distances, speed, backing, adverse weather conditions, controlling emotions under pressure, and more.

Visit nsc.org/CEVO for course overviews and topics by sessions.

Both courses are also available in an online format and take approximately 4 hours to complete. Content will vary between the Classroom and Online Course.

NSC encourages you to submit nominations for these five prestigious awards, given annually to recognize top achievers in safety.

Green Cross for Safety® Awards

Nominations close on Nov. 22

Email greencross@nsc.org and mention the Defensive Driving Catalog to request an extension.

Awards are given in three categories:

**Advocate**
Recognizes a community partnership, program, individual or coalition that has made a significant impact on a safety issue by advocating to raise awareness or change policy.

**Excellence**
Recognizes a corporation, coalition or organization for the unrelenting pursuit of exceptional, transferable safety practices.

**Innovation**
Recognizes a researcher, corporation or organization that has successfully addressed a long-held challenge in safety with a new or novel approach.

---

**Marion Martin Award**
Celebrates accomplished women safety professionals who have paved the way to success for other women in our field.
Sponsored by: Amazon & UPS

**Distinguished Service to Safety Award**
The most prestigious award given to individuals by the National Safety Council, this award recognizes outstanding service and contributions to the field of safety.

Nominations close March 27

**Rising Stars of Safety Award**
Recognizes professionals under 40 who show dedication to safety leadership at work.

**Community Advancement Award**
Recognizes employers who show a commitment to safety in their communities.

Who can you nominate for prestigious National Safety Council awards?

YOURSELF • COLLEAGUES • ORGANIZATIONS

Transform the way you train your employees

The National Safety Council onsite training brings subject matter experts to your office, facility, conference center, or corporate retreat for engaging and informative training on issues that matter the most to your organization.

Maximize learning and minimize downtime

More and more companies are realizing the value of bringing training onsite – a convenient, cost-effective option that allows you to train as many or as few employees as you need – from a single team or department to everyone in your organization.

Programs are delivered when and where you want them. And, with more employees where you need them, you’ll increase productivity with flexible course scheduling.

Onsite training offers many other benefits:
- Tailored program content focusing on specific safety needs and expectations
- Interactive dialogue and face-to-face answers for specific questions
- Significant cost savings with group training and by eliminating travel expenses
- Excellent team-building opportunity for your organization

Refresher driver training could be life-saving!

Everyone can benefit from Refresher driver training...

from beginners to experienced drivers. It is especially important post-incident. Statistics show that almost 20% of drivers involved in fatal crashes had previous moving violations and 18% had previous recorded crashes.*

Refresher training helps drivers reexamine their driving habits and determine the right decisions to prevent a motor vehicle crash.

Ready for a Refresher?

The National Safety Council offers multiple online training options for your employees – from 20-minute modules to full-length 4-hour courses. Drivers can choose training based on specific needs and can study at their own pace.
